

## Cocktails – Blue Lagoon

So even cocktails can be created using simple floral sundries. Our Blue Lagoon has a ‘hidden secret’- submersible lights which add an extra dimension to this very exotic Cocktail.

### Glassware

Rigatti Flute Vase( H55cm)

Mirror plate 30cm

### Floral Sundries / Accessories used:

Deco Beads- Blue

Silver Glitter

Double sided tape

4 x Snowflake picks

### Wedding Flower Sundries used:

Submersible lights (Teal coloured)

4 x sprays of small feathers.

### Method

First make up the Deco Beads according to the manufacturer’s instructions. Allow at least 4 hours for the Beads to swell up to full capacity.

Meanwhile assemble the cocktail stirrer/swizzle stick: Tape the Snowflakes together with the feathers to form a vertical row. Then using double sided tape, make a narrow collar around the top of the vase. Hold the vase over a container; sprinkle the silver glitter onto the tape covering it completely with a thick layer of glitter. Use a funnel to protect the glitter collar: pour in the Deco Beads up to virtually the top of the vase. Put in the swizzle stick and gently push in the submersible lights just under the surface of the Deco Beads.

### Tip

Create your own cocktail by changing the colour of the Deco Beads and feathers.
