

## Cocktails – Mint Tulip

Instead of using a glass vase for flowers, why not make your own favourite cocktails. Swizzle sticks can be made from a variety of floral accessories, the more flamboyant the better!

### Glassware

Wyatt Lux Vase (H35x28cm)

### Floral Sundries/Accessories

1x Packet Crystal Accents - Diamond White

Mint Green cellophane

1x Spray of Bear Grass

1x Lime Green Butterfly 24x19cm

2x Pale Green Butterflies

### Wedding Flower Sundries

1x Packet Mint Green Pearl Beads

1x Pearls on Reel – Mint

### Method

- ❖ First make up the Crystal accents according to the manufacturer's instructions. Allow at least 4 hours for the accents to swell up to full capacity.  
Meanwhile make your cocktail stirrer/swizzle stick:
- ❖ Using the Bear Grass as the main feature, decorate by sliding the pearl beads onto the individual fronds. Then clip the large butterfly onto the grass using the clasp provided.
- ❖ Decorate the outside of the vase with the pearls on wire by winding the reel from the top of the glass vase down to the base. Add the two smaller butterflies to the wire at a pleasing angle.
- ❖ When the Crystal Accents are ready to use, pour into the base of the vase, to where the neck of the vase starts to widen out.
- ❖ Cut a piece of cellophane and loosely scrunch up, place this on top of the Crystal Accents, you may have to secure this at a couple of places to the glass with clear tape to stop the cellophane from 'spilling out'.
