

Cocktails - Strawberry Daiquiri

A very feminine cocktail: with pretty layers of pink, this would enhance any occasion.

Glassware

Goblet Style Vase (H33x D20x B15cm)

Floral Sundries/Accessories

2 x Packets Crystal Accents - Crystal Rose

Clear Cellophane, 1 packet SnowReal

1 Star pick -Pearl

4 sets of Baby Pink feather picks.

Iridescent Curling Ribbon

Small Red Star pins

Method

First make up the Crystal accents according to the manufacturer's instructions. Allow at least 4 hours for the accents to swell up to full capacity.

Meanwhile make your cocktail stirrer/swizzle stick:

Use the Pearl Star pick as the base; attach the pink feathers around the star in a fan shape. Use the iridescent ribbon to bind round the length of the wooden part of the pick, and then hang lengths of the iridescent curling ribbon from the base of the star.

Use the iridescent ribbon to bind round the length of the wooden part of the pick, and then hang lengths of the iridescent curling ribbon from the base of the star.

When the Crystal Accents is ready, pour into the goblet and gently level the top. Then place a layer of cellophane onto the surface of the Crystal Accents. (This helps to prevent the pink colour 'bleeding' into the snow.

Prepare the SnowReal according to the manufacturer's instructions and then gently tip this onto the cellophane. Push the swizzle stick into the glass and then place the red star pins around the top of the snow. Place 3 strawberry halves on the base of the glass to complete your cocktail.
